This document constitutes the requirements book of the [Requirements Handbook Companion](#). It follows the method presented in the [Handbook of requirements and business analysis](#). It uses the AsciiDoc template available [here](#).

## CHANGELOG

Version	Date	Comment
1.0	2021-02-01	Initial draft by <a href="#">J.-M. Bruel</a>
1.1	2021-02-08	Organization in separate books' files, by <a href="#">J.-M. Bruel</a>
<i>1.1</i>	<i>2021-02-19</i>	<i>Current PDF version, by <a href="#">J.-M. Bruel</a></i>

# Goals

## G.1 Overall context and goals

## G.2 Current situation

## G.3 Expected benefits

1 Readers of the [Companion Book](#) should be able to find some templates for the requirements' book structure.

! [Corresponding Artifact](#)

## G.4 System overview

2 The *system* under development in this specification is an unusual one: a book! It will serve as a companion for the [Handbook](#).

" [Corresponding Artifact]

## G.5 Limitations and exclusions

## G.6 Stakeholders

Here is a non-exhaustive list of the stakeholders.

*Table 1. Target side stakeholders*

Stakeholder	Category	Comment
Springer	Legal department	In charge of the edition of the <a href="#">Companion Book</a>
Readers of the <a href="#">Handbook</a>	User	Readers of the main <a href="#">Handbook</a> that might need additional information about the method
Readers of the <a href="#">Companion Book</a>	User	Person reading the <a href="#">Companion Book</a> who might not have access to the main <a href="#">Handbook</a>

*Table 2. Production side stakeholders*

Stakeholder	Category	Comment
Author of the Handbook	Domain Expert	Bertrand Meyer, author of the <a href="#">Handbook</a> , and main evaluator of the <a href="#">Companion Book</a>
Author of the Companion Book	Project Manager	<a href="#">J.-M. Bruel</a> , author and effort leader of the <a href="#">Companion Book</a>

## G.7 Requirements sources

# Environment

## E.1 Glossary

This section defines the domain-specific terms used in this document.

It also lists the icons used in this document.

### 1 Terms

#### Companion Book

The *system* to be developed.

#### Handbook

The book, entitled "Handbook of requirements and business analysis"; written by Bertrand Meyer (see PDF [here](#)); and for which the [Companion Book](#) serves as complementary material.

### 2 Icons

Here is the list of significations for the icons used when tracing the corresponding artifacts:

*Table 3. Icons signification*

Icon	Signification
!	A precisely referenced artifact satisfying the requirement
"	An artifact not yet fully functional
"	No corresponding artifact yet (requirement not satisfied)

## E.2 Components

## E.3 Constraints

## E.4 Assumptions

## E.5 Effects

## E.6 Invariants

# Process

## P.1 Roles

The writing effort of the [Companion Book](#) is under the responsibility of [J.-M. Bruel](#).

## P.2 Personnel characteristics and constraints

## P.3 Imposed technical choices

The [Companion Book](#) should be written in English.

The [Companion Book](#) should be published in one of the compatible inputs of the publisher.

## P.4 Schedule and milestones

## P.5 Tasks and deliverables

## P.6 Risk and mitigation analysis

## P.7 Requirements process and report

# System

S.1 Components

S.2 Functionality

S.3 Interfaces

S.4 Scenarios (use cases, user stories)

S.5 Prioritization

S.6 Verification and acceptance criteria
